CHANGE YOUR MIND, MARIE

You Would Not Like Newspaper Work and Its Hardships.

The following communication comes from

Pardon me for thus thrusting myself apon you. I am a girl of sixteen and am at present employed as sales ady in a Brooklyn stere. Having a liking as sales ady in a Brooklyn stere. Having a liking for newspaper work, or, rather, thinking I have, I ask your advice as to the best way of going about it, which I am sure you will not refuse ms. Piezze tell me what is essent in in newspaper work and if being a fluent speaker of German will be of any use to me. What are the hours? And what remumeration does a beginner receive? I am afraid I have imposed too much en your valuable time, so I will close, hoping to receive an answer. I remain, anxiously.

MARIE.

Change your mind, sweet Marie, and don's "go about thinking you have a liking for newspaper work." There isn't any money in it, and unless you can be a Frank Leslie, there isn't any fame. The hours are as many as the day and night contain, and unless a be-

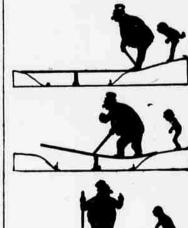

ginner has a kind father and mother to go security for board and clothing he has a rough time of it, and she has a rougher time.

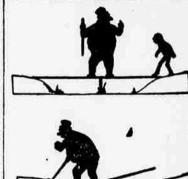

Modesty is one of the easentials; "being a fluent speaker of German " might be of use on a German paper, but most of the New York editor s prefer men who can write English, go without rest and refreshment, work seven days in the week, get all the news and be satisned with whatever pay they can get. An iron constitution and nerves of steel, a heart stone, eagle eyes, and brains are among he few other materials out of which success is made. At sixteen a woman is most lovely. You

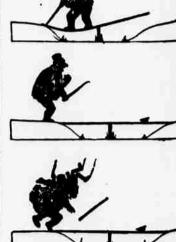

must be pretty. The very brilliancy of your eyes and complexion, the gloss of your hatr, the sweetness of your breath, the smooth and delicate curves of your cheeks, the freshness of your fips, the firmness and grace of your limbs, the pretty way your head is set upon your shoulders, and the caressing touch of your soft hands are indescribably charmin Now why not plunge in behind the dry goods counter and become a first-class saleswoman? Use your English and German, and trade; say pleasant words to the purse-proud women you have to wait on; try and please them, study their moods, show them everything you have in stock, make them buy, and make your intelligence and personal worth feit; force the heads of departments to recog-nize your value, and through them reach the proprie tora

Stern devotion to duty, sweet regard for your associates and customers will bring this about. If you don't get promotion after promotion and as much salary as you de-serve, marry some good man who can support you and who will love you better than anything on the face of the earth. Be worthy anonymously to the Duke and Duchoss of of that love, deserve his confidence, make NELL NELSON.
